

Dear Hank Brown,

I believe that the investigation initiated by the University of Colorado against Ward Churchill was a political act that violated Churchill's right to freedom of speech, and was not motivated by questions of academic scholarship. It is clear that the investigation committee was stacked against Churchill, and was intended from its inception to serve a greater political goal.

I demand that Ward Churchill remain a tenured professor on this campus.

Dear Hank Brown,

I believe that the investigation initiated by the University of Colorado against Ward Churchill was a political act that violated Churchill's right to freedom of speech, and was not motivated by questions of academic scholarship. It is clear that the investigation committee was stacked against Churchill, and was intended from its inception to serve a greater political goal.

I demand that Ward Churchill remain a tenured professor on this campus.
