

## George Katsiaficas

George Katsiaficas, Professor of Humanities and Social Sciences, Wentworth Institute of Technology, Boston, says:

Professor Ward Churchill's scholarly contributions to our understanding of domestic American political trends are nothing short of extraordinary. His meticulous research, published in numerous books, is the product of a true scholar's labor. His attention to detail and rigorous level of documentation are noteworthy. What Professor Churchill does, however, far exceeds these standards of scholastic excellence. He also provides a systematic framework of analysis through which to interpret the data he has so assiduously collected. This combination of theoretical and practical levels of analysis is what makes his work so vital to our collective understanding of modern America.
